DESCRIPTION

of

Iris Mother of Pearl

STANDARDS and falls pale bluish lavender, with a faint creamy undertone. Large flowers of perfect form and exceptional substance. The creamy undertone of this exceptional substance often assumes the luster and iridescence which we see in the beautiful lining of many sea shells which produce mother of pearl. The plant is tall, a vigorous grower and a profuse bloomer.

Mother of Pearl is a real gem of beauty, an aristocrat among Irises. Its splendid iridescent color, its perfect form, its vigorous growth and wonderful substance have won for it recognition as one of the world's best Irises. This variety is included in every Iris collection of merit in the United States, and should be in your Iris section.

Strong, Healthy Roots \$1.00 Each
